

Program #4

How TO

This program allows you to enter a Title of a Movie and the Adjusted Total Box Office Amount into the appropriate text boxes. After you have entered the information, you can either click the "Add" button or hit the enter key. This will store your title and Total Box Office. It will also add this information in the text box below.

The Sort by Title button will sort all the information you have entered in alphabetical order and display the information in the text box.

The Sort by Box Office Button will sort all the information you have entered by total box office amount, from lowest to highest.

The Clear button will empty all of the information that you have entered and it will also clear the text box and the Top Grossing titles list.

The Easy Button will pre-load all of the James Bond Movie titles and their Adjusted total box Office revenues for you. They will all be displayed in the text box and you will be able to sort them.

The Top Grossing Titles List only becomes active once you have entered in three or more movie titles + Box office revenues. It will list the top 30% grossing movies in your list. For Example, If you use the "Easy Button", it will load 22 James Bond Movies. The Top 30% of 22 movies is 7 movies (rounded up). The list will display the 7 top grossing Bond movies in order from highest to lowest.

The exit button will close the program.

Thanks and enjoy the program! :)
